BETWEEN WATER AND AIR

The beauty of this area was weaving its enthralling magic as far back as the Lepontine Celts. They settled in Val Menaggio to the north-west of Lake Como, not far from our hotel, where they lived with a profound connection to nature. You will also feel this magical bond, the divine power of nature, when you retreat from the world at ARIA Retreat & SPA. This isn't your run-of-the-mill 5-star superior hotel on Lake Lugano, it is an exceptional retreat in Italy, which offers you a comprehensive wellness programme focusing on the elements: water, air and earth.

The Celts also gave us also the inspiration for the name of our SPA area, CEÒ, whose light-flooded architecture invites in the surrounding park and merges with nature to form a single entity. Over an area of 1,500m², you will experience countless soul-freeing moments. Moments that will bring you back to earth. Moments that will let your soul take flight. Close your eyes and let yourself fall back into the embrace of well-being with one of our many high-quality treatments.

Our exclusive adults-only SPA is a gem of peace and tranquillity where you can enjoy renewed vitality. Simply surrender to relaxation and discover our treasures:

- 5 individual cabins
- Panorama Private SPA with sauna / sanarium and saltwater whirlpool on the private terrace
- Finnish sauna with spectacular panoramic view of Lake Lugano and the Alps directly from the sauna cabin
- Bio hay sauna with spectacular panoramic view of Lake Lugano and the Alps directly from the sauna cabin

UNDER THE SIGN OF WATER

Water has an almost magical allure. And it's no wonder – water is life. At our SPA CE^o we have harnessed the power of water to give you renewed well-being. Water played a vital role as a source of life in Celtic culture, a tradition we have revived in the SPA of our hotel. The Celts believed that every spring, every river, and every lake was inhabited by divine beings, and sought contact with them via various rituals to call on their healing powers. We have reinterpreted these rituals to whisk you away into new realms of well-being.

UNDER THE SIGN OF AIR

Treat yourself to fresh vitality: inhale deeply and enjoy the feeling of freedom and renewed energy that swells with every breath. The views of the unspoilt nature that surrounds you here on the shore of Lake Lugano, the scents drifting in the air, the flavours that tantalise your taste buds – your senses will never have felt as alive as during your holiday in our retreat. Enjoy the infinite expanse of stunning mountain and lake scenery and soak up the indescribable scents that flood your airways while forest bathing near the hotel.

UNDER THE SIGN OF EARTH

Aromatic herbs played as important a role for the Celts as they do in our SPA CE. The Druids, as the Celts called their healers, were well versed in the versatile healing powers of a wide range of herbs. But they didn't only use these green power sources for medicinal purposes, they also used them as incense and wore them on their body as talismans. We have harnessed this ancient earth knowledge to develop delicious recipes, exquisite scents for our exclusive suites, and numerous beneficial treatments, all drawing on the power of aromatic herbs to give you a feeling of renewed vitality.

CEÒ SIGNATURE TREATMENTS

OUR PRODUCT LINE

BIOLOGIQUE RECHERCHE

Dr Philippe Allouche

Skin is the reflection of ourselves; it isn't consistent, but multiple over the course of a day, of a life. Everyone has different Skin Instants®. Biologique Recherche's Methodology treats each person's epidermis in a personally tailored way.

The fruit of four decades of experience, the Biologique Recherche methodology is based on unique and personalized skincare protocols adapted to the Skin Instant© of each individual. These treatments – equally suitable for both men and women – comprise three principal stages:

1. THE ASSESSMENT STAGE: ANALYSIS OF YOUR SKIN'S SPECIFIC NEEDS

Before your treatment, the Biologique Recherche expert carries out a thorough dermo-cosmetic diagnosis to pinpoint your exact Skin Instant®, to allow a treatment protocol to be devised that precisely matches your needs.

2. THE INITIALIZATION STAGE: PREPARING AND BALANCING THE EPIDERMIS

The treatment protocol begins with individualized preparation of your epidermis – the ultimate shield that protects from the aggressions of the external world.

This follows a precise and rigorous ritual based on:

- Thorough cleansing of your skin combined with a massage
- Preparing your skin, using the brand's iconic Lotion P50, and applying a face mask

3. THE TREATMENT STAGE: TARGETING EACH ISSUE AND TREATING IT IN DEPTH

This stage incorporates products with the highest concentration of active ingredients, to "recondition" the epidermis and help enhance its potential for self-regeneration.

*TO FURTHER BOOST THE EFFECTIVENESS OF THIS TREATMENT, WE RECOMMEND COMBINING IT WITH A MICRODERMABRASION TREATMENT OR OXYGEN THERAPY.

MICRODERMABRASION*

45€ 15 min

Microdermabrasion is the gentlest and most effective mechanical peeling method using microcrystals. The skin's regeneration processes are stimulated through the very precise and gentle removal of the upper layer of skin cells. The combination of peeling and vacuum has a deep effect, stimulates the skin to produce collagen and elastin, and significantly boosts microcirculation. After this controlled peeling, highly effective active ingredients can be transported to the deeper skin layers with the help of ultrasound. A concluding mask helps to soothe the skin. You'll be delighted with the results after the first treatment. Microdermabrasion is totally pain free.

OXYGEN TREATMENT*

45€ 15 min

During an oxygen facial, active ingredients are gently and effectively transported to the deeper skin layers using a special oxygen treatment, where – with regular treatment – stores of active ingredients are formed, which supply the skin with vital nutrients. The circulation to the skin is promoted, and your skin will once again radiate vitality and become firmer. The oxygen treatment can be tailored to the individual needs of any skin. Face, neck, décolleté, as well as skin problems such as acne, rosacea, and scars can be treated.

*Upon request, both oxygen treatment and microdermabrasion can be integrated into your chosen face treatment, boosting its beneficial effects. Our SPA team will be happy to advise you.

The cushions are alternately inflated and deflated, which applies gentle pressure to the body. This technique has a variety of benefits: it relieves pain in the legs, promotes blood circulation in the veins, prevents varicose veins, firms the body, and fights cellulite. It is also recommended during post-operative and rheumatic care.

For a good, long-lasting result, you should have multiple treatments.
